Midnight Wine® Weigela

Weigela florida 'Elvera'

Height: 12 inches

Spread: 24 inches

Sunlight: ○

Hardiness Zone: 4

Description:

Here's one of the smallest weigelas you've ever seen; forms a low mounded shrub with rich burgundy-purple foliage all season long, deep pink trumpet-shaped flowers attract hummingbirds in spring; very showy, ideal for the mixed garden border

Ornamental Features

Midnight Wine Weigela features showy clusters of rose trumpet-shaped flowers with buttery yellow anthers along the branches in late spring. It has attractive deep purple deciduous foliage. The pointy leaves are highly ornamental and turn an outstanding burgundy in the fall.

Landscape Attributes

Midnight Wine Weigela is a dense multi-stemmed deciduous shrub with a mounded form. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This shrub will require occasional maintenance and upkeep, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting hummingbirds to your yard. It has no significant negative characteristics.

Midnight Wine Weigela is recommended for the following landscape applications;

Planting & Growing

Midnight Wine Weigela will grow to be about 12 inches tall at maturity, with a spread of 24 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.

Midnight Wine Weigela makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers and foliage against which the thriller plants stand out. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
